

# NAIC CLIMATE RISK DISCLOSURE SURVEY

## TCFD-ALIGNED QUESTIONS

### UPDATED 2022

#### GOVERNANCE

1. *Disclose the insurer's governance around climate-related risks and opportunities.*

*In disclosing the insurer's governance around climate-related risks and opportunities insurers should consider including the following:*

- Identify and include any publicly stated goals on climate-related risks and opportunities.
- Describe where climate-related disclosure is handled within the insurer's structure, e.g., at a group level, entity level, or a combination. If handled at the group level, describe what activities are undertaken at the company level.

*A. Describe the board and/or committee responsible for the oversight of climate-related risks and opportunities.*

*In describing the position on the board and/or committee responsible for the oversight of managing the climate-related financial risks, insurers should consider including the following:*

- Describe the position on the board and/or committee responsible for the oversight of managing the climate-related financial risks.

*B. Describe management's role in assessing and managing climate-related risks and opportunities.*

#### Response to Governance

The Enterprise Risk Management (ERM) Committee, consisting of executive leadership, oversees the Point32Health ERM function. The ERM function facilitates risk management practices and assists management in identifying, defining, and reporting risk-related information. Quarterly risk workshops are held with management to identify and/or confirm risks included in the ERM program. A catalog of risks Point32Health is subject to is maintained and routinely reviewed. Climate risk is included in the risk catalog for consideration but is not currently identified as a reportable enterprise risk.

#### STRATEGY

2. *Disclose the actual and potential impacts of climate-related risks and opportunities on the insurer's businesses, strategy, and financial planning where such information is material.*

*In disclosing the actual and potential impacts of climate-related risks and opportunities on the insurer's businesses, strategy and financial planning, insurers should consider including the following:*

- Describe the steps the insurer has taken to engage key constituencies on the topic of climate risk and resiliency. \*
- Describe the insurer's plan to assess, reduce, or mitigate its greenhouse gas emissions in its operations or organizations. \*

*A. Describe the climate-related risks and opportunities the insurer has identified over the short, medium, and long term.*

*In describing the climate-related risks and opportunities the insurer has identified over the short, medium, and longer term, insurers should consider including the following:*

- Define short, medium, and long-term, if different than 1-5 years as short term, 5-10 years as medium term, and 10-30 years as long term.

*B. Describe the impact of climate-related risks and opportunities on the insurer's business, strategy, and financial planning.*

*In describing the impact of climate-related risks and opportunities on the insurer's business, strategy, and financial planning, insurers should consider including the following:*

- Discuss if and how the insurer provides products or services to support the transition to a low carbon economy or helps customers adapt to climate-related risk.
- Discuss if and how the insurer makes investments to support the transition to a low carbon economy.

*C. Describe the resilience of the insurer's strategy, taking into consideration different climate-related scenarios, including a 2 degree Celsius or lower scenario.*

## Response to Strategy

Point32Health currently does not have a process for identifying climate related risks and opportunities that could affect business including financial implications.

## RISK MANAGEMENT

*3. Disclose how the insurer identifies, assesses, and manages climate-related risks.*

*In disclosing how the insurer identifies, assesses, and manages climate-related risks, insurers should consider including the following:*

- Describe how the insurer considers the impact of climate related risks on its underwriting portfolio, and how the company is managing its underwriting exposure with respect to physical, transition and liability risk. \*
- Describe any steps the insurer has taken to encourage policyholders to manage their potential physical and transition climate related risks, if applicable. \*
- Describe how the insurer has considered the impact of climate-related risks on its investment portfolio, including what investment classes have been considered. \*

*A. Describe the insurers' processes for identifying and assessing climate-related risks.*

*In describing the insurers' processes for identifying and assessing climate-related risks, insurers should consider including the following:*

- Discuss whether the process includes an assessment of financial implications and how frequently the process is completed. \*

*B. Describe the insurer's processes for managing climate-related risks.*

*C. Describe how processes for identifying, assessing, and managing climate-related risks are integrated into the insurer's overall risk management.*

*In describing how processes for identifying, assessing, and managing climate-related risks are integrated into the insurer's overall risk management, insurers should consider including the following:*

- Discuss whether climate-related risks are addressed through the insurer's general enterprise-risk management process or a separate process and how frequently the process is completed.
- Discuss the climate scenarios utilized by the insurer to analyze its underwriting risks, including which risk factors the scenarios consider, what types of scenarios are used, and what timeframes are considered.
- Discuss the climate scenarios utilized by the insurer to analyze risks on its investments, including which risk factors are utilized, what types of scenarios are used, and what timeframes are considered.

## Response to Risk Management

The Enterprise Risk Management (ERM) Committee, consisting of executive leadership, oversees the Point32Health ERM function. The ERM function facilitates risk management practices and assists management in identifying, defining, and reporting risk-related information. Quarterly risk workshops are held with management to identify and/or confirm risks included in the ERM program. A catalog of risks Point32Health is subject to is maintained and routinely reviewed. Climate risk is included in the risk catalog for consideration but is not currently identified as a reportable enterprise risk.

## METRICS AND TARGETS

4. *Disclose the metrics and targets used to assess and manage relevant collateralized risks and opportunities where such information is material.*

*In disclosing the metrics and targets used to assess and manage relevant collateralized risks and opportunities where such information is material, insurers should consider including the following:*

- Discuss how the insurer uses catastrophe modeling to manage the climate-related risks to your business. Please specify for which climate-related risks the insurer uses catastrophe models to assess, if any.

*A. Disclose the metrics used by the insurer to assess climate-related risks and opportunities in line with its strategy and risk management process.*

*In disclosing the metrics used by the insurer to assess climate-related risks and opportunities in line with its strategy and risk management process, insurers should consider including the following:*

- In describing the metrics used by the insurer to assess and monitor climate risks, consider the amount of exposure to business lines, sectors, and geographies vulnerable to climate-related physical risks [answer in absolute amounts and percentages if possible], alignment with climate scenarios, [1 in 100 years probable maximum loss, Climate VaR, carbon intensity], and the amount of financed or underwritten carbon emissions.

*B. Disclose Scope 1, Scope 2, and if appropriate, Scope 3 greenhouse gas (GHG) emissions, and the related risks.*

*C. Describe the targets used by the insurer to manage climate-related risks and opportunities and performance against targets.*

## Response to Metrics and Targets

The ERM Program tracks Key Risk Indicators (KRIs) related to top enterprise risks. Climate risk is not currently identified as an enterprise risk, thus there are no climate risk metrics tracked within the ERM program.

- ***Reducing our footprint***

Since 2021 we have reduced our office footprint by 44%. This reduction in square footage (731,494 sq.ft.) – as well as the reduced energy usage on low-occupancy days – has drastically reduced our energy consumption, and our hybrid work schedule also helps reduce transportation emissions.

- ***Reducing transportation emissions***

- Shuttles to and from public transportation at our offices in Canton and Quincy, Mass., support the avoidance of 109,992 kg emissions.

- 14 EV charging stations at our Canton office support the avoidance of 43,707 kg emissions since 2021.

- ***Water efficiency at our offices***

- Used rain and well water for irrigation to reduce reliance on public water supplies.
- Provided water stations that supported colleagues in using reusable containers 21,000 times rather than using plastic bottles.

- ***Material conservation***

- Recycled 421 tons of cardboard and 164 tons of confidential paper since 2022.
- Began conducting a paperless initiative to transition from print to eDelivery for sustainability and cost savings.

\* Asterisks represent questions derived from the original Climate Risk Disclosure Survey.
