Sun Life is committed to being part of the climate solution. Meaningful climate action aligns with our values and is essential to achieving our Purpose to help our Clients achieve lifetime financial security and live healthier lives. With \$1.33 trillion in assets under management (AUM) 52,500 employees, and 97,400 advisors globally, Sun Life has an important role in the global climate transition, and a responsibility to our stakeholders. In 2021, we set a goal to achieve net-zero greenhouse gas (GHG) emissions in our investments and operations by 2050. Now, we must get to the hard work of delivering on these promises and transparently reporting so we can be held to account.

Our reporting aligns with the recommendations from the Task Force for Climate-Related Financial Disclosures (TCFD) and is handled at the parent level, Sun Life Financial, Inc. Sun Life's latest [Annual Report](#) includes TCFD recommended disclosures, found on pages 78–81. Additionally, Sun Life publishes an annual [Sustainability Report](#) to provide an update on the progress it has made globally on key sustainability topics as well as its [Net Zero by 2050](#) commitment. Ongoing updates of Sun Life's climate-related progress and disclosures can also be found on: www.sunlife.com/sustainability.
